

SMARTFRAME[®]

POWERED BY INNOVATION

High Performance

SmartLVL15 is the strongest mass-produced LVL in the Australian market, meaning smaller cross sections for the same span properties as some common LVL sizes.

Short-term Water Repellent - H₂O Shield™

SmartLVL 15 comes with a clear short-term water repellency. H₂O Shield™ is a high penetrating water-based surface treatment, formulated to repel rain during storage and construction. H₂O Shield™ is paintable with acrylic or oil based coatings, and glueable using standard construction adhesives.

Treatment Options

All SmartLVL products come as H2S termite treated as standard, for protection south of the Tropic of Capricorn. H2 termite treatment for north of Tropic of Capricorn. H3 treatment against decay and termites.

Comprehensive Range

SmartLVL15 offers the most comprehensive range in the market, with SmartLVL 15 available in 42mm, 58mm and 75mm widths and a range of 15 different heights.
